About Aafiat Takaful Plan

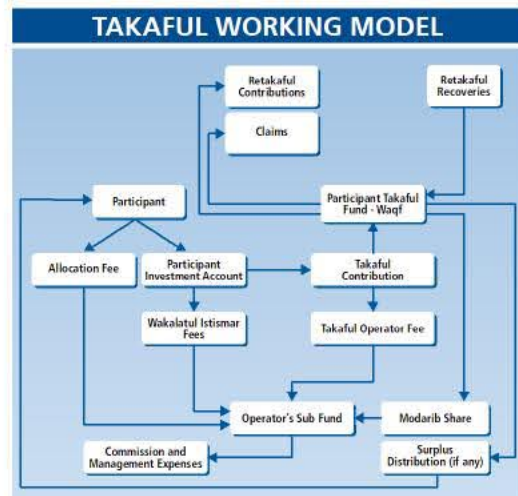

Aafiat Takaful plan offers a unique combination of savings, investment and protection. It offers

you the peace of mind and takes care of the future of your loved ones by not only providing Takaful coverage but also giving a Savings plan that is in line with the Shari'ah Principles.

The plan is being offered by IGI Life-Window Takaful Operations and has been exclusively designed for its Participants. It is only available through our Takaful Consultants and our pan Pakistan agency branch network.

The Concept of Takaful

Takaful is an age old Islamic concept of mutual help & support blended with modern concepts of Actuarial Science, Underwriting and Investment under the supervision of Shari'ah Advisor. It is a Shari'ah compliant way of supporting each other in case of Death, Disability or Disease.

How Does the Takaful Membership Operate?

IGI Life-Window Takaful Operations takaful model is based on the Wakalah-Waqf principle. Individuals in the community come together for a common purpose and contribute into a Waqf Fund operated by a Window Takaful Operator to protect themselves against future financial losses.

Surplus Sharing

Participants of the takaful fund as per the terms and conditions of the Waqf, may be entitled to a share of possible surplus funds. Takaful offers a unique feature of Surplus Sharing to the Participants in addition to risk mitigation benefits. As approved by the Shari'ah Advisor and Appointed Actuary at the end of each year, IGI Life - Window Takaful Operations

will determine the surplus (if any) available in the PTF for distribution.

Benefits under Aafiat Takaful Plan Death Benefit

Sum Covered or account value in Participant's Investment Account (PIA) whichever is higher. PLUS The accumulated account value of Top-Up amounts PLUS Surplus (if any) as per PTF Policies of WTO

Basic Sum Covered: The Basic Sum Covered will be a multiple of Basic Contribution depending on the age of the participant as follows:

Age	Multiples of Basic Contribution	
	Minimum	Maximum
Up to 55	5	30
56 to 60	5	20
61 & onwards	5	10

Maturity Benefit

On completion of the membership term, the available Participant's Investment Account (PIA) value along with the account value of Top-Up amount (if any), will be payable to the participant as a lump sum amount.

Complete Surrender

The participant has the right to fully surrender his/ her membership by redeeming all available units in the PIA. In case of complete surrender, the units will be redeemed at the bid price and the membership will be terminated. A processing fee will be charged at the time of surrender.

Partial Withdrawal

Partial Withdrawals can be made from the PIA anytime during the membership term by redeeming a limited number of units as per the terms and conditions. The amount withdrawn is considered a permanent withdrawal and does not have to be repaid. A partial withdrawal will reduce the Death Benefit by the amount of partial withdrawal.

What other supplementary benefits can I attach to the plan to enhance benefits payable on death or disability?

Following optional supplementary benefits

are available which may be attached to the basic membership to enhance the coverage level and submission of satisfactory evidence of insurability:

Waiver of Contribution – Disability: WoC waives the future contributions in case of permanent total disability of the participant up to the end of term and same is paid by Waqf.

Additional Protection Benefit: APB enhances the benefit payable on participant's death, whether due to accidental or non-accidental causes. The APB sum covered is payable in a single lump sum in addition to any other death benefit payable under the basic membership.

Income Benefit - Death: A monthly income benefit will be provided to the nominee following the death of the participant up to the end of the elected term.

Income Benefit - Disability: A monthly income benefit will be provided to the participant following the permanent total disability of the participant up to the end of the elected term.

Accidental Death Benefit: ADB pays a lump sum amount in case of accidental death of the participant in addition to basic sum covered.

Contribution Indexation

Indexation is an optional feature offered in this plan. Under this feature your contributions will increase by a fixed amount every year leading to a better cash value accumulation and consequently a higher maturity benefit without any increase in the sum covered. Even once

opted, you still have a right to decline the option and continue paying level contribution subject to certain terms and conditions.

Where are the contributions invested?

Your contributions will be invested in Shari'ah compliant investments to build the PIA.

You will be offered 3 different Shari'ah compliant investment strategies: Conservative, Balanced and Aggressive as described below:

Takaful Conservative Strategy

The underlying assets include Shariah compliant government and/or other secured investments. There will be no exposure to stock market under this strategy.

Shariah Compliant Government securities and/ or Other Shariah Compliant fixed income investments: 100%

Takaful Balanced Strategy

This strategy seeks steady growth in capital through a combination of investments in Shariah compliant stocks, government securities and/ or other secured investments. The mix of underlying assets would be:

Shariah Compliant Stock Market Funds: 0 to 40%

Shariah Compliant Government securities and/ or Other Shariah Compliant fixed income investments: 60 to 100%

Takaful Aggressive Strategy

This strategy seeks to provide long term capital growth mainly through investments in Shariah Compliant equities. The mix of underlying assets here would be:

Shariah Compliant Stock Market Funds: 60 to 70%

Shariah Compliant Government securities and/ or Other Shariah Compliant fixed income investments: 30 to 40%

Under each strategy you have an investment account as listed in the application. The percentage of contribution you wish to allocate to buy units in Participant Investment Account (PIA) should be indicated in the application.

You can manage your investments by investing your own investment strategy portfolio from a range of options to suit your needs and preferences. You will have the option to transfer between the investments accounts subject to certain conditions. Please note that investment risk shall be borne by the participant and actual maturity or surrender values may be lower or higher than the projected figures.

Transfers between Investment Funds

A participant can also switch his/ her account value among different strategies. In that event, units from one strategy will be redeemed at prevailing bid price and allocated to the desired strategy at the bid price. This way a participant can change gears in view of the changing financial condition and maximize returns. A nominal processing fee is applicable at each switch.

Unit Price Publication

Unit prices under all strategies may be viewed at www.igilife.com.pk.

Top-Up Contributions

The plan is a regular contribution plan but a participant may top-up the regular contribution by depositing surplus funds as a lump sum contribution in the membership. These lump sum contributions, called "Top-Up Amounts", can be made at any time. Top-Up payments will increase the PIA account value of the membership but will not affect the Basic Sum Covered. The amount of the Top-Up is subject to the minimum and maximum limits as determined by the Takaful Operator from time to time.
