

Minimum Basic Contribution and Modes

The minimum collected basic contribution is PKR 25,000 for the following modes of contribution payment:

- Annual
- Semi-Annual
- Quarterly

The contribution payment term will be the same as the membership term chosen.

Contribution Allocation

The table below depicts the year-wise allocation percentages of the participant's contribution:

For top-up payments-minimum payment is PKR 100,000 with no limit on the maximum.

The Way Forward

Education shouldn't be a privilege. And with the Danish Education Plan it doesn't need to be.

With this plan you can feel assured that your child's education is taken care of even in the case of untimely death. So while we cannot know what will happen in the future, at the very least we can be prepared for it.

After all, we need to ensure that our children have access to every opportunity to allow them to be the best they can be.

What can I do to prepare?

Financial advisors and experts offer advice, just in case.

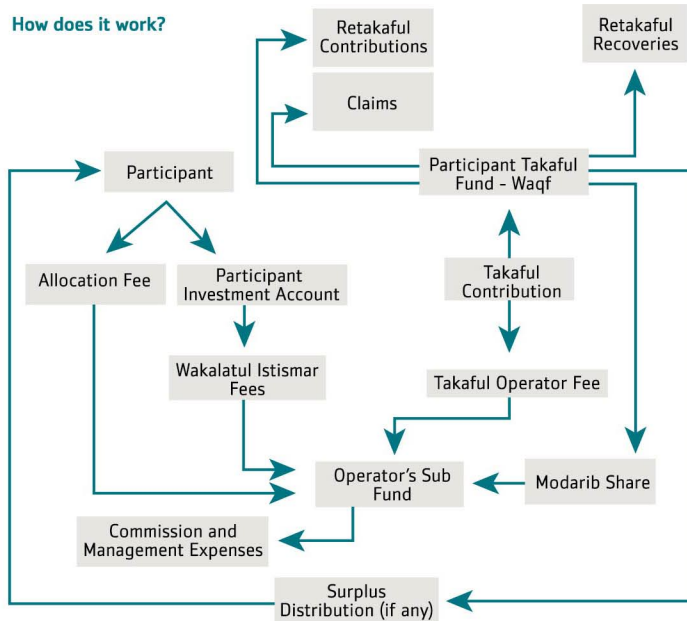

1. Do budgeting: Have a detailed budget of cash inflows and outflows.
2. Have a plan: Long-term saving plans turn out to be life saving.

Danish Education Plan is an easy and affordable solution where you can make regular contributions to the Window Takaful Operator from the date you acquire membership of the plan to build up a Participant Investment Account (PIA) by the time your child enters college.

What is Takaful?

Takaful is an age-old Islamic concept of mutual help and support blended with modern concepts of actuarial science, underwriting and investment under the supervision of Shariah advisor. It is a Shariah compliant way of supporting each other in case of death or disability.

How does it work?

Unique Benefits of Danish Education Plan

1. Death benefit is the sum covered plus Participant Investment Account (PIA) value.
2. In case of accidental death built-in ADB sum covered shall also be payable.

3. In case of accidental death in Saudi Arabia while performing Hajj or Umrah, ADB sum covered shall be doubled.
4. Continuous growth: At the end of each year the surplus (if any) in PTF is distributed among eligible participants and in case of deficit, same is financed by Window Takaful Operator as Qarz-e-Hasana.
5. Investment made only in Shariah compliant funds (Sukook etc.) as approved by Shariah advisor.
6. Allocation of contribution increases above 100% from 4th year onwards.
7. At the maturity payout options in form of lump sum payment or four equal instalments.
8. Cash withdrawal option from PIA is available from 1st year provided minimum amount of withdrawal is as per company's terms and conditions.
9. Tax benefit on amount of contribution payments as per FBR Rules.

Bank Alfalah in partnership with IGI Life-Window Takaful Operations, presents Danish Education Plan, which is uniquely designed plan for Bank Alfalah customers. The plan is designed to offer Takaful benefit along with growth of funds to meet your children's education expenses.

It is a Shariah compliant plan by IGI Life-Window Takaful operations that safeguards you and your family while providing growth of funds to meet the children's education expenses. The plan assists participants to share their risk on the basis of cooperation, brotherhood, mutuality and solidarity for a common good. There is flexibility of customising the solution through additional protection benefits as well as by selecting the level of Takaful cover as per need.

How does the Takaful membership operate?

IGI Life's Takaful model is based on the Wakalah-Waqf principal. Individuals in the community come together for a common purpose and contribute into a Waqf Fund operated by a Window Takaful Operator to protect themselves against future financial losses.

What is surplus sharing?

By contributing Tabarru (donation) into the Participant's Takaful Fund (PTF), the participant may be entitled to a share of possible surplus funds. Takaful offers a unique feature of surplus sharing to the participants in addition to risk mitigation benefits. As approved by the Shariah advisor and appointed actuary at the end of each year IGI Life-WTO will determine the surplus (if any) in the PTF.

What are the benefits of surplus sharing?

Part of the surplus (if any) in PTF is distributed amongst eligible participants in the form of bonus units through additional unit allocation in the Participant Investment Account (PIA). The allocation of these bonus units will enhance the cash value of your Takaful Plan.

Takaful Benefits

Death Benefit

Takaful benefit payable in case of the unfortunate event of death during the membership term will be as follows:

Sum covered plus Participant's Investment Account (PIA) value plus the accumulated account value of top-up amounts plus surplus (if any) in PTF as per PTF policies of WTO.

The basic sum covered will be a multiple of basic contribution. The following two multiples will be offered to the participant: 5 or 10.

Built-in Additional Benefits

- Accidental Death Benefit: In case of accidental death of the participant, the built-in ADB cover will pay 5 times the basic annual contribution or PKR 1,000,000; whichever is lower
- Waiver of Contribution-Disability: WOC waives the future contributions in case of permanent total disability of the covered person up to the end of term

The contribution for the above benefits will be paid by the participant.

Maturity Benefit

On completion of the membership term, the available Participant's Investment Account (PIA) value along with the account value of top-up amount (if any) will be payable to the participant. The accumulated value in PIA can be:

- Taken as a lump sum or
- Taken in 4 equal annual instalments

Contribution Indexation

Indexation is an optional feature offered in this plan. Under this feature your contributions will increase by a fixed amount every year leading to a better cash value accumulation and consequently a higher maturity benefit without any increase in Sum Covered. Even once opted, you still have a right to decline the option and continue paying level contribution subject to certain terms and conditions.

Optional Benefits

There are various optional benefits which may be attached to enhance the Takaful coverage by paying additional contribution. These are as follows:

- Income Benefit-Death: A monthly income benefit will be provided following the death of the participant up to the end of the elected term
- Income Benefit-Disability: A monthly income benefit will be provided following the permanent total disability of the participant up to the end of the elected term
- Accidental Death Benefit: ADB pays a lump sum amount in case of accidental death of the participant

In which funds will my contributions be invested to build up the PIA for my future needs?

Your contributions will be invested in Shariah compliant investments to build the PIA.

You will be offered 3 different Shariah compliant investment strategies: Conservative, Balanced and Aggressive as described below:

Conservative Strategy: The strategy would be the most appropriate for those participants, who wish to invest more cautiously. Accordingly, the investments are placed in short-term fixed income Shariah compliant instruments with no exposure to equities.

Balanced Strategy: This strategy seeks steady growth in capital through investments in combination of Shariah compliant fixed income and equity investments.

Aggressive Strategy: This strategy seeks to provide you with long-term capital growth through investments majorly in Shariah compliant equities.

Under each strategy you have an investment account as listed in the application. The percentage of contribution you wish to allocate to buy units in an investment account should be indicated in the application.

You can manage your investments by creating your own investment strategy portfolio from a range of options to suit your needs and preferences. You will have the option to transfer between investment accounts subject to certain conditions.
