Funds Performance Report

October 2019

IGI Life Insurance Limited

Macro Review and Outlook:

Oct-19, headline inflation prints a +11.04% y/y growth

As per the latest reading, headline CPI inflation edged up by +11.04% y/y making it third consecutive month of FY20 having double-digit growth. On a monthly basis, national CPI is up +1.8% m/m one of the sharpest rise since start of FY20. Moreover, Oct-19 print was higher by a good +54bps against market consensus of 10.5%.

For the month, food inflation rose by +14.1% y/y (+1.9% m/m), key among which are prices of perishable food items up by +13.8% m/m (weight: 5.0% in total basket). Break-up wise, rural food inflation saw a sharper increase of +2.6% m/m compared to +1.4% m/m for urban. The rise in perishable food items during the month is part seasonal and is in the upcycle and partially due to cost push factors. National non-food inflation settled at +9.1% y/y owing to higher urban NF inflation of +9.3%. Key among which are energy prices (gas +55% y/y & electricity +11% y/y) and petroleum prices (up +21% y/y). During the month the quarterly house rental index (HRI) was also revised upward by +0.5% m/m or +4.6% y/y. While urban HRI, contributing -60%, was up by +5.02% y/y.

FY20 Inflation to remain below SBP and IMF target at +10%; hinting to possible monetary rate cycle reversal starting Jan-20 onwards.

We maintain our expectation for CPI inflation, whereby FY 20 average is likely to come close to +10% against SBP target of 11-12% and IMF 13%. Moreover, from 3q FY20 onwards, inflation is expected to drop down back to single digit, which should prompt authorities to cut key policy rate. Henceforth we are of the view that SBP is likely to keep policy rate unchanged at 13.25% in November Monetary policy statement announcement due.

C/a deficit further shrinks in Sep-19 to USD 0.26bn

On external side, monthly current account (C/a) deficit during Sep-19 further shrinks to USD 0.26bn compared to USD 0.61bn (down by 58% m/m) and USD 1.28bn (down by 80% y/y) for the month of Aug-19 and Sep-18 respectively. On a cumulative basis, 1q FY2020 C/a deficit declined by ~64% y/y to USD 1.55bn compared to USD 4.29bn in the same period last year.

Major respite came from lower import bill, down by 23% y/y during 1q2020, bringing down trade deficit to USD 5.0bn (decline of 40%). However, support from income balance remained subdued as well, mainly on account of lower remittances during the month of Aug-19 owing to outgoing 'Eid-ul-Adha' in Jul-19.

Under imports, nearly all commodity groups saw a net decline during the month of Sep 2019. Petroleum group led to the largest impact on imports with imports down to USD 2.89bn in 1qFY20 compared to USD 4.13bn last year same period (down by 30% y/y). Followed by petroleum, agri, and metal group also witnessed a significant decline of 17% and 23% y/y respectively. However, on exports front, textile group (57% of total weights in exports) also declined by 2% y/y to USD 3.42bn. Nevertheless, the net trade balance of the three groups Food, Textile and Petroleum turned positive at USD 146mn during 1qFY20 compared to a deficit of USD 1,541mn during 1qFY19.

FATF in its latest evaluation report has maintained Pakistan's status under the grey list category, with technical deficiencies still left unaddressed

As part of the country's on-going compliance with Anti-Money Laundering (AML)/Combating the Financing of Terrorism (CFT), the FATF (Financial Action Task Force) in its latest evaluation report has maintained Pakistan's status under the grey list category, with technical deficiencies still left unaddressed. So far out of the total set of 40 recommendations formulated by FATF, Pakistan is partially (27), largely (9) and fully complied (1) with 36 of the recommendations while 4 remain non-compliant. In case of not meeting the above compliance by stated dates, FATF will take action, which could include the "FATF calling on its members and urging all jurisdictions to advise their FIs to give special attention to business relations and transactions with Pakistan."

...however, more needs to be done and speedily

Recent decision by FATF has to an extent averted Pakistan from falling into blacklist status, while the decision to remain in grey list was very much in-line with market consensus. To assert, FATF lauded Pakistan's ongoing progress in implementing AML/CFT but has given a relatively, short timeline of 4months to fully complete implementation of AML/CFT, which in our view could be challenging. At similar background, one of the structural benchmark under IMF includes successful implementation of AML/CFT measures; to which Pakistan has somewhat on varying degree shown satisfactory improvement.

Equity Market Review and Outlook:

Backed by Banks & E&Ps, KSE100 up by 2k points or +6.6% m/m to close at 34,204 level

The domestic equity bourse pull-back 2,125 points in Oct-19 to close at 34,203.68 level. This brings 2019 to date return to -7.72% (USD -17.7%). On Volumes front, KSE 100 volumes increased by +54.0%MoM to 126.8mn which further reflects higher activity in market during the month.

Major reasons behind this upswing was signs of improvement in economy with substantial decline in Current Account deficit and stability in PKR, successful review of FATF where Pakistan remained on grey list and expectation of interest rate cut as fixed income yields witnessed continuous drop during the month. PIB yields recorded a 237bps, 251bps and 256bps decline in 3, 5 and 10 years' paper respectively since Jul-19.

Cements, Fertilizer, E&Ps and Banks outperformed the benchmark index with 12%, 7.4%, 7.3% and 5.7% return respectively during the month while cumulatively adding 1,448 points to the index. Cements outperformed owing to deferment of axle load condition and increase in cement prices in North while Fertilizer sector performed on higher payouts. Banks' outperformance was on the back of expanding NIMs while E&Ps performed on attractive valuations.

Foreign investment showed a net sell of USD 12.93mn with net buy in Cement Sector (USD 4.2mn), Fertilizer (USD 2.8mn) whereas net selling was witnessed in Commercial Banks (USD 13.5mn), Oil & Gas Exploration (USD 4.9mn) and Textile Composite (USD 1.8mn). In 2019 to-date, FDI stood at net buy of USD 58.5mn while Mutual Funds and Insurance have offloaded USD 204.1mn and USD 52.6mn respectively while individuals remained net buyer worth of USD 76.1mn.
