Macroeconomic Review:

During October-2022, National Consumer Price Inflation (CPI) settled at 26.6% on yearly basis, higher than the expectations, as compared to 23.2% in the month of Sep-2022. Rise in CPI index was due to increase in food prices and reversal of electricity price adjustment which was implemented in Sep-2022. Price surge was witnessed in all categories of CPI basket.

On month-on-month (MoM) change basis, inflation remained higher to record at 4.7% in Oct-2022; urban CPI was 4.5% and rural CPI was 5.0%. This was due to supply side issues caused by floods, higher contributing items in this month were onions (+25% MoM), tomatoes (+28% MoM), wheat (+12% MoM) and milk (+3% MoM). Non-Food Non-Energy Inflation (core inflation), continued its upward trend to report at 15%/18% for Urban and Rural index, respectively.

During Sep-2022, Current Account Deficit (CAD) settled at USD 316 million, as compared to USD 676 million in Aug-2022. Import curtailment and resultant decline in trade deficit was the major reason for improvement in CAD. Workers' remittances decreased during the month to USD2.4bn, supporting the external account.

In the latest released numbers, Real Effective Exchange rate (REER) index reported at 90.9 at Sep-2022 vs. 94.4 at Aug-2022 end. REER number came down due to high inflation trend globally. Although, during Oct-2022, PKR strengthened against the USD by 3%, while touching high of 217 in this month. Considering REER only, suggests that there is little room for any further rupee depreciation. As per news flows, the country could receive strong inflows from China and Saudi Arabia.

Money Market Review:

In last auction of T-bills in October 2022, cut-off yields stood at 15.72%/15.74%/15.75 for tenors of 3 months, 6 months and 12 months respectively.

Auction for Fixed PIBs held on 13-Oct-2022, cut off yields for PIBs settled at 13.84% and 13.09% for 3 years and 5 years tenors respectively, while no bids were accepted for 10 years.

During Oct-2022 monetary policy announcement SBP kept the policy rate unchanged, citing their stance is appropriate for both managing inflation and growth in wake of the floods. Overall, economic activity has visibly deteriorated in recent months.

Equity Market Review:

KSE-100 index closed at 41,265 points level at Oct-2022 end, slightly up by 0.3% (+136 points) as compared to Sep-2022 close.

On activity front, average daily traded value of KSE100 index improved by 11% on month-on-month basis during Oct-2022 to PKR 6.0 billion.

Net foreign portfolio recorded inflow of USD 14.4 million during Oct-2022. Foreign corporates and foreign individuals bought net USD 7.6 and 7.4 million worth of equities during the month.

On local activity side, individuals only remained major buyer of USD 12.8 million in the equity market. Banks/DFIs, Brokers, Companies, Insurance, Mutual Funds and NBFCs cumulatively sold USD 28.1 million worth of equities.

The Technology and Communications Sector continued to drive the index performance during the month, gaining 3.2%. The Sector witnessed foreign inflows of USD 18.4 million during the outgoing month.
