FUNDS MANAGEMENT REPORT For the month of December 2022

Macroeconomic Review:

During December-2022, National Consumer Price Inflation (CPI) settled at 24.5% on yearly basis, as compared to 23.8% in the month of Nov-2022. Price increase was witnessed in segments including wheat, fresh fruits and milk which have a higher weight in the CPI basket. Recreation segment with 1.6% weight in the CPI basket witnessed a major price surge of 10.9% on monthly basis. These were the main reasons for higher inflation number.

Core inflation again posted a high reading of 14.7% in Dec-2022 in Urban, while rural core inflation number reported at 19.0% (highest since May-2009), rising core inflation readings warrant attention.

During Nov-2022, Current Account Deficit (CAD) settled at USD 276 million, as compared to USD 1,929 million in Nov-2021. Significant import curtailment through administrative and other measures helped to contain the current account deficit. On the other hand, workers' remittances dropped during the month to USD 2.1 billion, possibly due to increase in difference in inter-bank and open market USD parity.

In the latest released numbers, Real Effective Exchange rate (REER) index reported at 98.85 at Nov-2022 vs. 100.2 at Oct-2022 end. PKR depreciated by around 2% against the USD during Dec-2022. High REER number, depleting foreign exchange reserves and funding gap for foreign debt repayments will keep the PKR under pressure.

Money Market Review:

In the last auction of T-bills in Dec-2022, cut-off yields settled at 17.00%/ 16.83%/ 16.85% for 3 months, 6 months and 12 months tenors respectively. In a subsequent auction in Jan-2023, cut-off yield for 3 months settled at 17.0% while bids were rejected for 6 months and 12 months.

In the last fixed rate PIBs auction, no amount was raised. Bids were rejected in 3/5/10 years while no bids were received in 15/20/30 years.

In the recent monetary tightening decision, the SBP cited rising core inflation as one of the major reasons. Core inflation number remained high in the Dec-2022. Next monetary policy announcement is scheduled for 23 January, 2023. Overall, economic growth will also remain subdued. During FY23, central bank expects the headline inflation number to average at 21-23%.

Equity Market Review:

KSE-100 index closed at 40,420 points level at Dec-2022 end, down by 4.55% (-1,928 points) as compared to Nov-2022 closing.

On activity front, average daily traded value of KSE100 index dropped considerably by 12.5% on month-on-month basis during Dec-2022 to PKR 4.1 billion.

Net foreign portfolio recorded outflow of USD 34.0 million during Dec-2022. Foreign Individuals and Overseas Pakistanis bought net USD 0.2 and 26.5 million while the Foreign Corporates sold USD 60.7 million worth of equities during the month.

On local activity side, banks, companies and other organization remained buyers and bought equities of USD 43.9/ 13.2/ 5.1 million Dec-2022. On local selling side, brokers, individuals, insurance companies and mutual funds sold USD 6.1/ 3.6/ 3.7/ 14.0 million in the equity market during the month.

During 2022, technology and communication sector performance only remained in green and was up by 8%. Major decliners in 2022 were engineering (-43%), pharmaceuticals (-35%) and refinery (-34%) sectors.
