# FUNDS MANAGEMENT REPORT For the month of April 2023

#### Macroeconomic Review:

During April-2023, National Consumer Price Inflation (CPI) jumped to all time high level of 36.4% on yearly basis, as compared to 35.4% in the month of March-2023. Food inflation went up to 48% on yearly basis whereas on monthly basis, food inflation was 4.4%

Continuing it upwards trajectory, core inflation further increased in April to 19.5% in urban areas and 24.9% in rural areas. In April 2023, Wholesale Price Index rebounded in Apr-2023 with 0.1% monthly increase, reaching to 33.4% on yearly basis, signaling pressures on retail prices going forward. Impact from macro adjustments such as rupee devaluation and energy prices' increase would keep inflationary pressures for the near term.

During Mar-2023, Current Account settled at USD 654 million surplus, as compared to deficit of USD 36 million in Feb-2023. Significant import curtailment through administrative measures, and month-on-month surge in workers remittances helped in attaining a current account surplus. Workers' remittances increased from USD 1,988 million in Feb-2023 to USD 2,533 million in Mar-2023.

In the latest released numbers, Real Effective Exchange rate (REER) index reported at 85.62 at Mar-2023 vs. 86.48 in Feb-2023 end. PKR depreciated by around 4.5% against the USD during Mar-2023. High REER number, low foreign exchange reserves and funding gap for foreign debt repayments will keep the PKR under pressure.

#### Money Market Review:

In the last auction of T-bills in Apr-2023, cut-off yields settled at 21.98%/21.94%/21.86% for 3/6/12 months.

In the latest fixed rate PIBs auction, Cut-off yields settled at 18.38. Bids were rejected in 5 and 10 years while no bids were received in 15/20/30 years.

To deal with the rising inflation, the SBP increased the policy rate by 100 bps, taking the policy rate to 21.0% in its last monetary policy meeting. Overall, economic growth will also remain subdued. Supply side issues and weaker PKR will keep the inflation level high.

#### **Equity Market Review:**

KSE-100 index closed at 41,581 points level at Apr-2023 close, up by 3.95% (+1,580 points) as compared to Mar-2023 closing.

On the activity front, average daily traded value of KSE100 index decreased by 56% on month-on-month basis during Apr-2023.

Net foreign portfolio recorded an outflow of USD 8.39 million during Apr-2023, out of which USD 10.23 million was taken out by foreign corporates.

On the local activity side, insurance companies, mutual funds and brokers were the major net sellers with total outflow of USD 17.85 million; while buying was witnessed majorly by companies and banks with aggregate net buying of USD 18.22 million.
